Education

B.Tech – Computer Science and Engineering

2023–2027

Gouthami Institute of Technology and Management for Women | 75% (Pursuing)

Intermediate (MPC)

70%

Sri Veera Bramhendra Junior College

SSC

591/600

Zilla Parishad Girls High School

Technical Skills

Programming: Java, Python, C

Web & Backend: HTML, CSS, JavaScript, Flask

Database: SQL, SQLite, MySQL, DBMS

AI/ML: Machine Learning, OpenCV, NumPy

Tools: Git, GitHub, Visual Studio Code

Core: Data Structures, Problem Solving, Blockchain

Projects

AI-Enhanced Blockchain Certificate Verification System

- Developed a web-based certificate verification system using Python Flask, HTML, CSS, JavaScript, and SQLite.
- Integrated Groq API to support AI-assisted certificate analysis and verification workflows.
- Applied blockchain-based verification concepts to strengthen certificate authenticity, integrity, and tamper detection.

Face Recognition using PCA and ANN

- Developed a face recognition system using Principal Component Analysis (PCA) and Artificial Neural Network (ANN) classification.
- Performed image preprocessing and feature extraction using Python, OpenCV, and NumPy.

Smart Study AI Companion

- Built an AI-based study assistant using Python, HTML, CSS, PyPDF2, and LLaMA via Groq API.
- Implemented document-based study support to help users interact with uploaded learning material.

Internship & Certifications

- Artificial Intelligence Internship – ISTUDIO
- NPTEL – English Language for Competitive Examinations (Elite)
- Explainable Artificial Intelligence – JNTU Pulivendula (2025)
- GEN AI – NASSCOM
- ICAT Qualification

Soft Skills

Communication | Teamwork | Analytical Thinking | Creative Thinking | Problem Solving
